Second Floor

First Floor

This innovative floor plan offers tradition with all the trimmings, with the addition of a second story conveniently divided into a loft and bonus bedroom/bath. It overlooks the generous family room below with its cathedral ceiling, fireplace and visual flow into the dining nook, replete with windows all around. The kitchen offers ample room for meal preparation and access to the laundry room, where soiled tablecloths can be quickly treated. A sun-filled master suite includes a bay window option and is a secluded respite with bathroom and walk-in closet.

The lower level is huge with ample space for a recreational room, general storage and additional bedroom and bath. A two-car garage and covered front porch make this exciting plan an inviting home.
