2,130 sf

Your friends will rave over the split ranch Chandler plan. Entering from the front covered porch, an oversized foyer leads into an open layout kitchen, dining and family room. The central kitchen features a large island with dishwasher, sink and built-in seating as perks that will make food prep and casual meals an easy part of your daily routine, or sit for more formal meals in a dining room capable of fitting a table that can seat all of your family and guests. Owners can retreat to their own borough of the house to work in the office, relax in the owner's suite or refresh in the owner's bath with optional built-in tub. The other two bedrooms share a hallway with another bathroom and linen/storage closets.

- OPTIONAL OWNERS BATH
